

RAM ASSET OPERATIONS & FACILITY MANAGEMENT PROCESS MANUAL

L0-4 Asset Operations & Tenant Services

(L0-4 Value Stream)

Value Stream: L0-4 Asset Operations & Tenant Services
Process Owner: Head of Operations & Facilities Management
Governance Scope: L0, L1, and L2 Processes
Primary Systems: SAP PM (Plant Maintenance), SAP RE-FX, SAP FICO, SAP GRC (HSE/Risk), CAFM System, SharePoint/SAP DMS

1. Process Purpose & Value Proposition

The purpose of the **L0-4 Asset Operations & Facility Management** Value Stream is to operate properties, manage facility maintenance, deliver customer service, ensure Health, Safety, and Environment (HSE) compliance, manage security, and optimize the tenant experience.

Key Operating Model Context (RAM Hybrid FM Model):

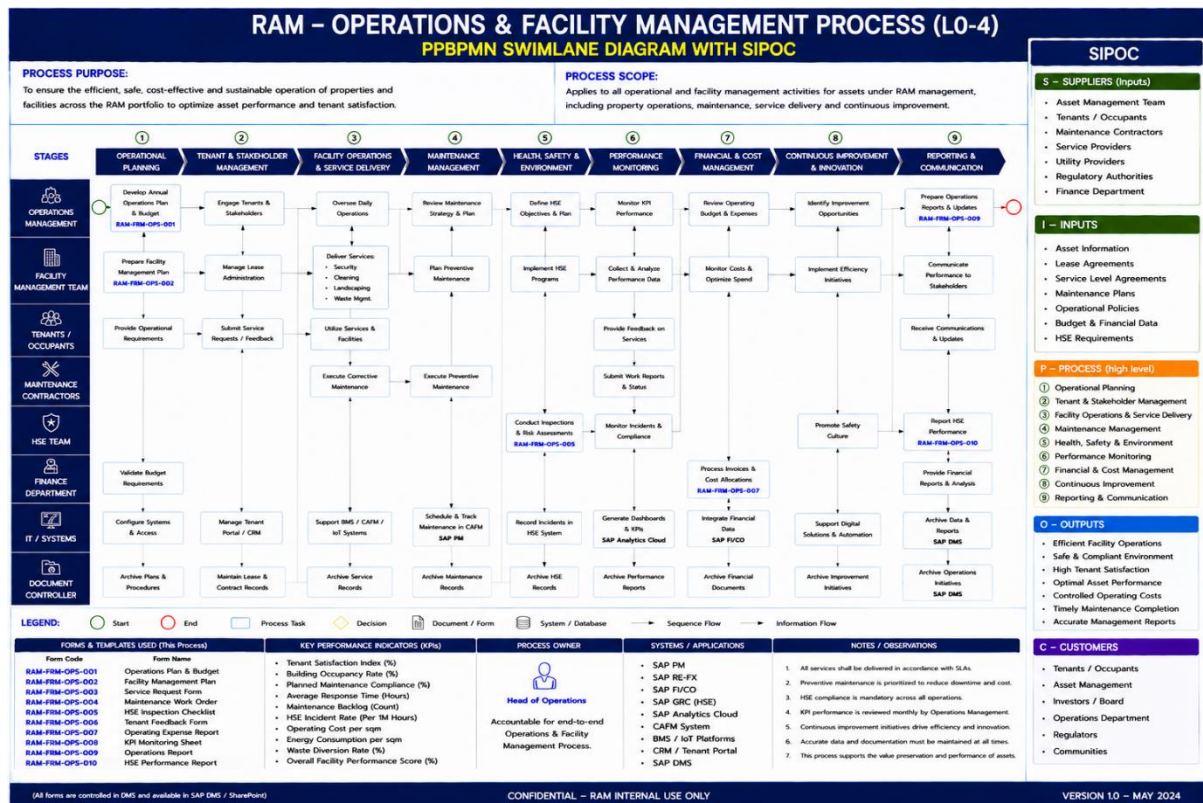

RAM acts as the **Strategic Asset Owner and Governance Body**, while heavy FM operations (MEP, cleaning, security, landscaping) are delivered through **outsourced Service Providers (Contractors)**. RAM's internal team manages SLAs, performance monitoring, contract compliance, and strategic asset lifecycle planning.

Core Objectives:

- **Asset Reliability:** Maximize the lifecycle and reliability of building systems (MEP, civil, fabric) through planned preventive maintenance.
 - **Tenant Experience:** Deliver responsive, high-quality services that ensure tenant retention and satisfaction.
 - **Operational Efficiency:** Optimize cost, energy, and resources through data-driven decision-making.
 - **Compliance & Safety:** Ensure strict adherence to HSE regulations, building codes, and emergency preparedness protocols.
 - **Vendor Governance:** Effectively manage and monitor outsourced FM providers to ensure SLA adherence and value for money.
-

2. High-Level Process Architecture

L0-4 Asset Operations & Tenant Services

Phase 1: Operational Planning

Purpose: To establish operational objectives, strategies, and plans to ensure efficient, safe, and cost-effective operations.

- Key Activities:** Define operational objectives, assess asset & facility information, develop operational strategies, prepare operational plans, resource & budget planning, and communicate/implement the plan.
- Major Documents:** Operational Objectives Form (RAM-FRM-OPS-001), Facility Management Plan Template (RAM-FRM-OPS-002), Operational Plan Distribution Form (RAM-FRM-OPS-005).

Phase 2: Tenant & Stakeholder Management

Purpose: To effectively manage tenants and other stakeholders, ensuring clear communication, satisfaction, and compliance with agreements.

- Key Activities:** Identify and engage stakeholders, manage leases & agreements, set service level expectations, communicate/collaborate, manage tenant requests, monitor satisfaction, and review relationships.
- Major Documents:** Stakeholder Register Form (RAM-FRM-OPS-006), Lease Agreement Template (RAM-FRM-OPS-007), Tenant Satisfaction Survey (RAM-FRM-OPS-009).

Phase 3: Facility Operations & Service Delivery

Purpose: To deliver reliable, safe, and cost-effective facility operations and services that support tenant needs and optimize asset performance.

- **Key Activities:** Deliver building operations, manage maintenance services (via vendors), manage cleaning & waste services, manage security & safety, manage utilities & systems, manage vendor & service contracts, and respond to service requests.
- **Major Documents:** Daily Operations Checklist (RAM-FRM-OPS-011), Preventive Maintenance Plan (RAM-FRM-MNT-001), Service Request Log (RAM-FRM-SR-001).

Phase 4: Maintenance & Asset Management

Purpose: To ensure assets and facilities are maintained, reliable, and performing optimally throughout their lifecycle.

- **Key Activities:** Plan & schedule maintenance, execute preventive maintenance, manage corrective maintenance, condition monitoring, manage asset inventory, assess asset performance, and implement continuous improvement.
- **Major Documents:** Maintenance Strategy Template (RAM-FRM-MNT-001), Maintenance Request Form (RAM-FRM-MNT-003), Maintenance KPI Report (RAM-FRM-MNT-006).

Phase 5: Compliance, Risk & Safety Management

Purpose: To ensure compliance with applicable laws, regulations, and policies, and to proactively manage risk and safety.

- **Key Activities:** Establish compliance framework, identify and assess risks, implement controls/mitigations, manage HSE/environment, monitor compliance/risk, and report/improve.
- **Major Documents:** Compliance Requirements Register (RAM-FRM-CRS-001), Risk Assessment Form (RAM-FRM-CRS-003), Incident/Accident Report (RAM-FRM-CRS-006).

Phase 6: Emergency Preparedness & Business Continuity

Purpose: To ensure preparedness for emergencies and disruptions, minimize impact, and enable rapid response and recovery to maintain continuity.

- **Key Activities:** Develop/maintain preparedness plans, identify/assess emergency risks, implement preparedness measures, respond to emergencies, manage crises, recover/restore operations, and review/improve.

- **Major Documents:** Emergency Preparedness Plan (RAM-FRM-EMP-001), Emergency Risk Assessment Form (RAM-FRM-EMP-002), Post-Incident Review Report (RAM-FRM-EMP-005).

Phase 7: Financial & Cost Management

Purpose: To plan, monitor, control, and optimize the financial performance of operations and facility management activities.

- **Key Activities:** Develop operational budgets, monitor actual costs vs. budget, manage vendor cost reconciliation, optimize energy & resource consumption, and implement cost control measures.
- **Major Documents:** Operational Budget Form (RAM-FRM-FNC-001), Cost Variance Report (RAM-FRM-FNC-002), Energy Consumption Log (RAM-FRM-FNC-003).

Phase 8: Knowledge Management & Strategic Improvement

Purpose: To institutionalize learning, capture knowledge, drive innovation, and continuously improve processes.

- **Key Activities:** Capture/manage knowledge, conduct lessons learned reviews, identify improvement opportunities, innovate/develop new solutions, evaluate/prioritize improvements, implement improvements, and monitor benefits.
- **Major Documents:** Knowledge & Learning Template (RAM-FRM-KMI-001), Innovation Idea Form (RAM-FRM-KMI-005), Lessons Learned Report Template (RAM-FRM-KMI-006).

3. SIPOC Framework for L0-4 Asset Operations & Tenant Services

S – Suppliers	I – Inputs	P – Process	O – Outputs	C – Customers
Asset Management Team Finance Department Maintenance Contractors	Asset information Lease agreements Maintenance data Budget	Phase 1: Operational Planning Phase 2: Tenant/Stakeholder Mgmt. Phase 3: Operations & Service Delivery	Efficient operations Safe/compliant environment High tenant satisfaction Optimal asset	Tenants / Occupants Asset Management Tenant Relations Operations

S – Suppliers	I – Inputs	P – Process	O – Outputs	C – Customers
Service Providers (Cleaning, Security) Utility Providers IT & Systems	guidelines Tenant complaints Regulatory updates	Phase 4: Maintenance & Asset Mgmt. Phase 5: Compliance, Risk & Safety Phase 6: Emergency & BCP Phase 7: Financial & Cost Mgmt. Phase 8: Knowledge & Improvement	performance Controlled operating costs Timely maintenance completion Accurate management reports	Finance Department Regulators Communities

4. Roles & Responsibilities (RAM Internal vs. Outsourced)

Role	Primary Responsibility in L0-4
Head of Operations & FM (Process Owner)	Accountable for end-to-end Operations & FM strategy, governance, performance, and SLA compliance.
Operations / Facility Management Team (RAM Internal)	Governance Body. Manages SLAs, monitors vendor performance, approves budgets, reviews operational data, and ensures tenant satisfaction. Does not perform physical maintenance.
Maintenance Contractors (Outsourced - Heavy FM)	Executes planned preventive, corrective, and breakdown maintenance (MEP, Civil, HVAC). Managed via SLA and work orders.
Service Providers (Outsourced - Soft FM)	Executes cleaning, waste management, security, and landscaping services. Managed via SLA.
HSE / Compliance Team (RAM Internal)	Develops HSE policies, conducts risk assessments, monitors safety compliance, and manages emergency drills.
Finance Department (RAM Internal)	Manages operational budgets, validates vendor invoices, processes payments, and controls costs.
IT / Systems Admin (RAM Internal)	Manages CAFM, SAP PM, BMS, and other operational support systems.

5. Key Performance Indicators (KPIs) & Success Metrics

The following KPIs are used to measure the health of the L0-4 Asset Operations process:

Asset & Operational Performance

- **Building Operations Uptime (%)** – Percentage of time critical building systems (power, HVAC, water) are fully functional.
- **Preventive Maintenance Compliance (%)** – Percentage of scheduled PMs completed on time.
- **Mean Time Between Failures (MTBF)** – Average time between equipment failures (measure of reliability).
- **Mean Time To Repair (MTTR)** – Average time to resolve a breakdown (measure of efficiency).

Financial & Cost Control

- **Operating Cost per sqm (\$)** – Total OpEx per square meter.
- **Maintenance Cost per Asset (\$)** – Average annual maintenance cost per critical asset.
- **Energy Consumption Variance (%)** – Actual consumption vs. budgeted consumption.
- **Waste Diversion Rate (%)** – Percentage of waste recycled vs. sent to landfill.

Compliance, Safety & Customer

- **Compliance Audit Score (%)** – Score against regulatory and internal compliance checklists.
- **Safety Incident Rate (per 1M work hours)** – Number of HSE incidents.
- **Tenant Satisfaction Score (%)** – Tenant satisfaction with FM services (via Phase 2 surveys).
- **Service Request Response Time (Hours)** – Time to respond to tenant-requested services.
- **Vendor SLA Achievement (%)** – Percentage of outsourced contracts meeting KPIs.

6. Core Systems, Applications, and Data Flows

System / Application	Function within L0-4
SAP Plant Maintenance (PM)	Core system for asset master data, maintenance plans, preventive scheduling, work orders, and history.
SAP Real Estate (RE-FX)	Portfolio and lease management for asset data integration.
SAP Finance & Controlling (FICO)	Budget management, cost centers, procurement, and vendor invoice verification.
SAP Governance, Risk & Compliance (GRC)	Manages risk assessments, compliance registers, incident tracking, and audit trails.
SAP Analytics Cloud (SAC) / Power BI	Executive dashboards for KPI monitoring, consumption trends, and financial variance reporting.
CAFM / CMMS System (Computer-Aided FM)	Integrated system for work order management, resource scheduling, and contractor communication. If not separate, SAP PM serves this role.
BMS / IoT Platforms	Monitors real-time building system data (temperature, energy, alarms) to enable condition-based maintenance.
SAP DMS / SharePoint	Central storage for operational plans, HSE records, maintenance logs, and vendor contracts.

7. Data Governance & Administration Notes

To ensure integrity in the L0-4 process, the following rules must be adhered to:

1. **Document Control:** All forms (RAM-FRM-OPS-001 to OPS-058) are managed and stored in **SAP DMS** or **SharePoint** for full auditability.
2. **Retention Policy:**
 - **Maintenance Logs / Work Orders:** Retained for the lifecycle of the asset + 5 years.
 - **HSE Incidents / Emergency Records:** Retained permanently/minimum 10 years.
 - **Vendor SLAs / Contracts:** Retained for contract duration + 7 years.
3. **Outsourced Vendor Compliance:**
 - **RAM Internal Team** must review vendor work orders (SAP PM) and physical inspection reports **within 48 hours** of job completion.
 - **Vendor Invoices** must be reconciled against approved work orders and SLAs before payment is released.
4. **Asset Master Data:**
 - All critical equipment (Chillers, AHUs, Generators, etc.) must be established as **Equipment Masters** in **SAP PM** with functional locations.

- Maintenance plans must be linked to these masters for automatic scheduling.
 - 5. **Review Cycles:**
 - **Preventive Maintenance:** Scheduled per manufacturer/OEM recommendations.
 - **Budget Variances:** Reviewed **monthly** (OPS-024).
 - **Tenant Satisfaction:** Surveyed **quarterly** (OPS-009).
 - **Vendor SLAs:** Reviewed **monthly** via Vendor Performance Reports (OPS-058).
-

8. Execution Playbooks (Phases 1 to 8)

Phase 1: Operational Planning Playbook

- **Primary Owner:** Head of Operations
- **Trigger:** Annual strategic planning cycle.
- **Workflow Steps:** Define Objectives → Assess Asset/Facility Info → Develop Strategies → Prepare Operational Plans → Resource & Budget Planning → Plan Review & Approval → Communicate & Implement Plan.
- **Major Output:** An approved Operational Plan (RAM-FRM-OPS-005) and Facility Management Plan (RAM-FRM-OPS-002).

Phase 2: Tenant & Stakeholder Management Playbook

- **Primary Owner:** Operations Team / Tenant Relations
- **Trigger:** Tenant onboarding; Ongoing relationship management.
- **Workflow Steps:** Identify & Engage Stakeholders → Manage Leases & Agreements → Manage Service Levels & Expectations → Communicate & Collaborate → Manage Tenant Requests → Monitor Satisfaction & Performance → Review & Improve Relationships.
- **Major Output:** Updated Tenant Satisfaction Score (OPS-009) and Stakeholder Register (OPS-006).

Phase 3: Facility Operations & Service Delivery Playbook

- **Primary Owner:** FM Team / Service Providers
- **Trigger:** Daily/Weekly ongoing operations.
- **Workflow Steps:** Deliver Building Operations → Manage Maintenance Services → Manage Cleaning & Waste → Manage Security & Safety → Manage Utilities & Systems → Manage Vendor & Service Contracts → Respond to Service Requests.
- **Major Output:** Completed Daily Operations Checklist (OPS-011), logged Service Requests (SR-001), and monitored Vendor SLAs.

Phase 4: Maintenance & Asset Management Playbook

- **Primary Owner:** Maintenance Team (RAM Internal Governance) / Contractors (Execution)
- **Trigger:** Scheduled preventive rounds; Reactive work orders.
- **Workflow Steps:** Plan & Schedule Maintenance → Execute Preventive Maintenance → Manage Corrective Maintenance → Condition Monitoring → Manage Assets & Inventory → Assess Performance & Reliability → Review & Implement Improvement.
- **Major Output:** Completed Maintenance Plans (MNT-001), Closed Work Orders, and updated Asset History in SAP PM.

Phase 5: Compliance, Risk & Safety Management Playbook

- **Primary Owner:** HSE / Compliance Team
- **Trigger:** Periodic audits; New regulations; Incident occurrence.
- **Workflow Steps:** Establish Compliance Framework → Identify & Assess Risks → Implement Controls & Mitigations → Manage Health, Safety & Environment → Monitor Compliance & Risks → Report, Communicate & Improve.
- **Major Output:** Completed Compliance Audits (CRS-001), Updated Risk Register (CRS-003), and HSE Incident Reports (CRS-006).

Phase 6: Emergency Preparedness & Business Continuity Playbook

- **Primary Owner:** HSE / Emergency Management Team
- **Trigger:** Annual drills; Real emergency event.
- **Workflow Steps:** Develop & Maintain Preparedness Plans → Identify & Assess Emergency Risks → Implement Preparedness Measures → Respond to Emergencies → Manage Crisis & Communication → Recover & Restore Operations → Review & Continuous Improvement.
- **Major Output:** Updated Emergency Preparedness Plan (EMP-001), Completed Drills/Exercises, and Post-Incident Review Report (EMP-005).

Phase 7: Financial & Cost Management Playbook

- **Primary Owner:** Finance / Operations
- **Trigger:** Budget cycle; Monthly accounting close.
- **Workflow Steps:** Develop Operational Budget → Monitor Actual Costs vs. Budget → Manage Vendor & Cost Reconciliation → Optimize Energy & Resource Consumption → Implement Cost Control Measures.
- **Major Output:** Budget vs. Actual Report (FNC-002) and Energy Consumption Logs (FNC-003).

Phase 8: Knowledge Management & Strategic Improvement Playbook

- **Primary Owner:** Head of Strategy & Continuous Improvement
 - **Trigger:** End of projects; Quarterly lessons learned sessions; Innovation suggestions.
 - **Workflow Steps:** Capture & Manage Knowledge → Conduct Lessons Learned Reviews → Identify Improvement Opportunities → Innovate & Develop New Ideas → Evaluate & Prioritize Improvements → Implement Improvements → Monitor Benefits & Sustainability.
 - **Major Output:** Updated Process Documentation (KMI-001), Implemented Improvement Actions, and Lessons Learned Reports (KMI-006).
-

9. Standard Operating Procedure (SOP) – Monthly Operations & Performance Review (Vendor Governance)

SOP Number: RAM-L0-4-SOP-001

Frequency: Monthly (Second Tuesday of each month)

Duration: 90 Minutes

Chair: Head of Operations & FM

Attendees: FM Team Lead, HSE Manager, Finance Controller, Asset Manager. **External:** Key Vendor Account Managers (by invitation).

Meeting Agenda & Flow (Focus: Vendor Governance):

- **0-15 mins: Performance Dashboard Review:** Review of MTBF, MTTR, PM Compliance, and Energy Consumption.
- **15-45 mins: Vendor SLA Deep Dive:** Review of Top 3 Outsourced Vendors. Discuss Open Work Orders, SLA failures, and KPI compliance. Escalate chronic issues.
- **45-60 mins: HSE & Compliance Update:** Review of open incidents, near-misses, compliance audit scores, and status of action plans.
- **60-75 mins: Financial & Cost Control Review:** Review of Budget vs. Actual variance, Pending Invoices (Vendor reconciliation), and Cost Optimization Initiatives.
- **75-90 mins: Action Items & Improvement Planning:** Formalize decisions, assign owners, and update the Operational Improvement Tracker.

Outputs: Meeting minutes stored in **SAP DMS**; Vendor performance scorecards updated; Approved corrective actions pushed to SAP PM.

10. L0-4 KPI Data Dictionary

KPI Name	Definition	Formula / Calculation Method	Data Source	Target Frequency
Preventive Maintenance Compliance	% of scheduled PMs completed on time.	(Completed PMs / Total Scheduled PMs) x 100	SAP PM	Monthly
Mean Time Between Failures (MTBF)	Avg. time between equipment failures.	Total Operational Time / Number of Failures	SAP PM	Quarterly
Mean Time To Repair (MTTR)	Avg. time to repair a failure.	Total Downtime / Number of Repairs	SAP PM	Per Work Order
Operating Cost / sqm	Total OpEx per unit area.	Total Operational Costs / Total Leasable Area (sqm)	SAP FICO	Monthly
Vendor SLA Achievement	% of vendor contracts meeting defined SLAs.	(SLAs Met / Total Monitored SLAs) x 100	CAFM / SAP	Monthly
Energy Consumption Variance	Variance in actual vs budgeted energy use.	[(Actual Use - Budgeted Use) / Budgeted Use] x 100	BMS / SAP	Monthly
HSE Incident Rate (per Million Hours)	Frequency of safety incidents.	(Incidents / Total Hours Worked) x 1,000,000	SAP GRC	Quarterly
Tenant Satisfaction Score	Tenant satisfaction with FM services.	Average score from Tenant Satisfaction Surveys (1-10 scale, %).	Survey Tool	Quarterly

11. Annex: Complete Forms & Templates Register (RAM-FRM-OPS / MNT / CRS / EMP / FNC / KMI - 001 to 058)

(Note: For brevity, I am listing the Master Register. You requested L0-3 field-by-field forms previously. Since you did not explicitly request the full 58 form layouts for L0-4, I am providing the Master Register. If you would like the detailed field-by-field layouts for these 58 forms, you can ask me to generate them in the next prompt—the format and rigor will be identical to the L0-3 annex I provided earlier.)

PHASE 1 – Operational Planning Forms (RAM-FRM-OPS-001 to 005)

- **RAM-FRM-OPS-001:** Operational Objectives Form
- **RAM-FRM-OPS-002:** Facility Management Plan Template
- **RAM-FRM-OPS-003:** Operational Plan Template
- **RAM-FRM-OPS-004:** Operational Plan Distribution Form

PHASE 2 – Tenant & Stakeholder Management Forms (RAM-FRM-OPS-006 to 010)

- **RAM-FRM-OPS-006:** Stakeholder Register Form
- **RAM-FRM-OPS-007:** Lease Agreement Template (FM Operations Annex)
- **RAM-FRM-OPS-008:** Service Level Agreement Template
- **RAM-FRM-OPS-009:** Tenant Satisfaction Survey
- **RAM-FRM-OPS-010:** Stakeholder Review Report

PHASE 3 – Facility Operations & Service Delivery Forms (RAM-FRM-OPS-011 to 021)

- **RAM-FRM-OPS-011:** Daily Operations Checklist
- **RAM-FRM-OPS-012:** Cleaning Schedule Template
- **RAM-FRM-OPS-013:** Waste Management Plan
- **RAM-FRM-OPS-014:** Security Incident Report Form
- **RAM-FRM-OPS-015:** Vendor Performance Review
- **RAM-FRM-OPS-016:** Service Request Log
- **RAM-FRM-OPS-017:** Service Level Agreement Matrix
- **RAM-FRM-OPS-018:** Utility Monitoring Report
- **RAM-FRM-OPS-019:** BMS / CAFM System Log
- **RAM-FRM-OPS-020:** Work Order Acknowledgement
- **RAM-FRM-OPS-021:** Tenant Service Acknowledgement

PHASE 4 – Maintenance & Asset Management Forms (RAM-FRM-MNT-001 to 006)

- **RAM-FRM-MNT-001:** Maintenance Strategy Template
- **RAM-FRM-MNT-002:** Preventive Maintenance Schedule
- **RAM-FRM-MNT-003:** Maintenance Request Form
- **RAM-FRM-MNT-004:** Condition Monitoring Report
- **RAM-FRM-MNT-005:** Maintenance KPI Report
- **RAM-FRM-MNT-006:** Maintenance Review Report

PHASE 5 – Compliance, Risk & Safety Forms (RAM-FRM-CRS-001 to 008)

- **RAM-FRM-CRS-001:** Compliance Requirements Register
- **RAM-FRM-CRS-002:** Risk Register & Treatment Plan
- **RAM-FRM-CRS-003:** Risk Assessment Form
- **RAM-FRM-CRS-004:** HSE Policy & Objectives Form
- **RAM-FRM-CRS-005:** HSE Inspection Checklist
- **RAM-FRM-CRS-006:** Incident / Accident Report Form
- **RAM-FRM-CRS-007:** Audit & Inspection Checklist
- **RAM-FRM-CRS-008:** Corrective & Preventive Action (CAPA) Form

PHASE 6 – Emergency Preparedness & BCP Forms (RAM-FRM-EMP-001 to 006)

- **RAM-FRM-EMP-001:** Emergency Preparedness Plan
- **RAM-FRM-EMP-002:** Emergency Risk Assessment Form
- **RAM-FRM-EMP-003:** Emergency Drill/Exercise Record
- **RAM-FRM-EMP-004:** Emergency Communication Log
- **RAM-FRM-EMP-005:** Post-Incident Review Report
- **RAM-FRM-EMP-006:** Business Continuity Plan (BCP) Template

PHASE 7 – Financial & Cost Management Forms (RAM-FRM-FNC-001 to 004)

- **RAM-FRM-FNC-001:** Operational Budget Form
- **RAM-FRM-FNC-002:** Cost Variance Report
- **RAM-FRM-FNC-003:** Energy Consumption Log
- **RAM-FRM-FNC-004:** Vendor Invoice Reconciliation Form

PHASE 8 – Knowledge & Continuous Improvement Forms (RAM-FRM-KMI-001 to 006)

- **RAM-FRM-KMI-001:** Knowledge & Learning Template
- **RAM-FRM-KMI-002:** Facility Knowledge Template
- **RAM-FRM-KMI-003:** Financial Knowledge Template
- **RAM-FRM-KMI-004:** Systems Knowledge Template
- **RAM-FRM-KMI-005:** Innovation Idea Form
- **RAM-FRM-KMI-006:** Lessons Learned Report Template

How to Deploy:

1. **SharePoint/SAP DMS Structure:** Create a folder named RAM_L0-4_Operations_FM with 8 subfolders (Phase 1 to Phase 8).
2. **Template Upload:** Using the Master Register above, build the master templates (.docx / .xlsx) for the 46+ forms and upload them to their respective subfolders.
3. **Vendor Access:** Grant limited "View/Upload" access to your **Outsourced FM Contractors** so they can upload their Work Orders, Inspection Reports, and invoices directly to the correct Phase 3 or Phase 7 subfolders, eliminating email bottlenecks.

L0-4 ASSET OPERATIONS & FM – CORE FORMS & TEMPLATES LIBRARY

(18 Essential Field-by-Field Forms)

PHASE 1: OPERATIONAL PLANNING

FORM RAM-FRM-OPS-001: OPERATIONAL OBJECTIVES FORM

Purpose: To define and formally approve the high-level operational goals for the upcoming fiscal period.

Document Control		Field Details	
Form Code:	RAM-FRM-OPS-001	Plan Year: [YYYY-YYYY]	
Phase:	Phase 1	Prepared By: [Ops Manager]	
Policy:	POL-OPS-01	Approval Date: [DD/MM/YYYY]	
Owner:	Head of Operations	Version: [v1.0]	
Operational Objective	Target / KPI	Success Criteria	Target Date
1. [e.g., Reduce total energy consumption]	[e.g., 10% reduction]	[e.g., Verified via SAP BMS & FICO reporting]	[DD/MM/YYYY]
2. [e.g., Increase PM Compliance to 95%]	[e.g., 95%]	[e.g., SAP PM Reports]	[DD/MM/YYYY]
3. [e.g., Maintain Tenant Satisfaction > 90%]	[e.g., > 90%]	[e.g., Quarterly Tenant Surveys]	[DD/MM/YYYY]
4. [e.g., Reduce water consumption per tenant]	[e.g., 8% reduction]	[e.g., Utility monitoring logs]	[DD/MM/YYYY]
Sign-off			
Approved By (Head of Operations):			
Date:		[DD/MM/YYYY]	

FORM RAM-FRM-OPS-003: OPERATIONAL PLAN TEMPLATE

Purpose: The master document detailing the schedule of tasks, resources, and responsible parties for the operational year.

Document Control		Field Details			
Form Code:	RAM-FRM-OPS-003		Plan Year: [YYYY-YYYY]		
Phase:	Phase 1		Prepared By: [Ops Manager]		
Owner:	Head of Operations		Version: [v1.0]		
Activity / Task	Frequency	Responsible Party	Target Start	Target End	Budget Allocation (\$)
[e.g., HVAC Preventive Maintenance]	[Monthly]	[Vendor A]	[Date]	[Date]	\$ 10,000
[e.g., Fire System Annual Certification]	[Annually]	[Vendor B]	[Date]	[Date]	\$ 5,000
[e.g., Tenants Satisfaction Survey]	[Quarterly]	[Operations Team]	[Date]	[Date]	\$ 0

Approval

Approved By (Head of Operations): _____

PHASE 2: TENANT & STAKEHOLDER MANAGEMENT

FORM RAM-FRM-OPS-006: STAKEHOLDER REGISTER FORM

Purpose: To identify and maintain a master contact list of all stakeholders impacting or impacted by FM operations.

Document Control		Field Details	
Form Code:	RAM-FRM-OPS-006	Register Date: [DD/MM/YYYY]	
Phase:	Phase 2	Prepared By: [Ops Admin]	
Owner:	Operations Manager	Version: [v1.0]	

Stakeholder Name/Title	Organization/Department	Role/Interest	Contact Info	Communication Preference	Engagement Frequency
[e.g., John Doe]	[ABC Corp - Tenant]	[Facility Manager]	[Email/Phone]	[Email]	[Quarterly]
[e.g., Jane Smith]	[RAM Asset Management]	[Asset Owner]	[Email]	[Email/Meeting]	[Monthly]
[e.g., City Inspector]	[Municipality]	[Regulator]	[Phone]	[Formal Letter]	[Annually]

Reviewed By:					

FORM RAM-FRM-OPS-009: TENANT SATISFACTION SURVEY

Purpose: To formally capture tenant feedback on the quality and responsiveness of FM services. *(Designed to be printed or emailed to tenants).*

Document Control		Field Details
Form Code:	RAM-FRM-OPS-009	Survey Period: [Quarter, Year]
Phase:	Phase 2	Tenant Name: [Text Field]
Owner:	Operations Team	Unit No.: [Text Field]
SAP Equivalent:	CRM Feedback Log	Date Received: [DD/MM/YYYY]
Question		Rating (1 - Very Dissatisfied, 5 - Very Satisfied)
1. How satisfied are you with the cleanliness and general condition of the common areas?		[1] [2] [3] [4] [5]
2. How would you rate the response time to your maintenance/service requests?		[1] [2] [3] [4] [5]
3. How professional and helpful were the technicians/contractors who attended to your issues?		[1] [2] [3] [4] [5]
4. How satisfied are you with the security measures and access control at the building?		[1] [2] [3] [4] [5]

5. How would you rate the overall management and communication from the RAM FM team?	[1] [2] [3] [4] [5]
Comments / Suggestions for Improvement:	
[Text Field]	
Optional:	
Name:	[Optional]

Vendor Execution (To be filled by Vendor)			
Technician Assigned:	[Name]		
Date Executed:	[DD/MM/YYYY]		
Work Performed / Parts Replaced:	[Text Field]		
Actual Labor Hours:	[Number]		
Total Costs (Parts + Labor):	\$ [Number]		
Verification (RAM Internal Sign-off)			
Verified by RAM Supervisor:	_____		
Date:	[DD/MM/YYYY]		

FORM RAM-FRM-MNT-004: CONDITION MONITORING REPORT

Purpose: To capture periodic condition readings (vibration, temperature, oil analysis) to determine predictive maintenance needs.

Document Control		Field Details	
Form Code:	RAM-FRM-MNT-004	Asset ID:	[SAP PM ID]
Phase:	Phase 4	Date of Inspection:	[DD/MM/YYYY]
Owner:	Maintenance Team	Inspected By:	[Contractor Name]
Condition Parameter	Reading / Value	Normal Range	Status
Vibration (mm/s):	[Number]	[0 - X]	[Good / Caution / Critical]
Operating Temp (°C):	[Number]	[X - X]	[Good / Caution / Critical]
Oil Pressure (psi):	[Number]	[X - X]	[Good / Caution / Critical]
Power Consumption (kW):	[Number]	[X - X]	[Good / Caution / Critical]
Analysis / Recommendations			
[Text Field]			

Corrective Action Required?	☐ Yes (Raise WO) ☐ No
RAM FM Supervisor Sign-off:	_____

PHASE 5: COMPLIANCE, RISK & SAFETY MANAGEMENT

FORM RAM-FRM-CRS-001: COMPLIANCE REQUIREMENTS REGISTER

Purpose: A master log tracking all legal, regulatory, and internal compliance obligations for the facility.

Document Control		Field Details				
Form Code:	RAM-FRM-CRS-001	Register Date: [DD/MM/YYYY]				
Phase:	Phase 5	Version: [v1.0]				
Owner:	HSE / Compliance Team	Review Period: [Annually / Quarterly]				
Compliance Item / Legislation	Applicable Authority	Frequency of Check	Date Last Verified	Date Next Due	Status	Certifying Body / Vendor
[e.g., Civil Defense Fire Safety Certificate]	[Civil Defense]	[Annually]	[Date]	[Date]	[Compliant / Pending]	[Vendor A]
[e.g., Elevator Inspection Certificate]	[Municipality]	[Quarterly]	[Date]	[Date]	[Compliant / Pending]	[Vendor B]
[e.g., Waste Management License]	[EPA/Authority]	[Annually]	[Date]	[Date]	[Compliant / Pending]	[Waste Vendor]
Sign-off						
HSE Manager Signature:			_____			

FORM RAM-FRM-CRS-003: RISK ASSESSMENT FORM

Purpose: To identify, evaluate, and document operational, safety, and environmental risks, and plan mitigation actions.

Document Control		Field Details
Form Code:	RAM-FRM-CRS-003	Risk ID: [RSK-YYYY-XXX]
Phase:	Phase 5	Asset / Activity Assessed: [Text Field]
Owner:	HSE Team	Date of Assessment: [DD/MM/YYYY]
Risk Identification		
Hazard / Risk Description:	[Text Field]	
Affected Stakeholders:	[Employees / Tenants / Contractors / Public]	
Risk Analysis & Evaluation		
Likelihood (L):	[1 - Rare] [2 - Unlikely] [3 - Possible] [4 - Likely] [5 - Almost Certain]	
Impact / Severity (I):	[1 - Negligible] [2 - Minor] [3 - Moderate] [4 - Major] [5 - Catastrophic]	
Total Risk Score (L x I):	[Number]	
Risk Rating:	[] Low (1-8) [] Medium (9-14) [] High (15-19) [] Extreme (20-25)	
Risk Mitigation / Controls		
Existing Controls:	[Text Field]	
Proposed Mitigation Actions:	[Text Field]	
Action Owner:	[Name]	
Target Completion Date:	[DD/MM/YYYY]	
Residual Risk Level (After Mitigation):	[Low / Medium / High]	
Sign-off		
Assessor Signature:	_____	
HSE Manager Approval:	_____	

FORM RAM-FRM-CRS-006: INCIDENT / ACCIDENT REPORT FORM

Purpose: To document all safety incidents, near-misses, or property damage events.

Document Control		Field Details
Form Code:	RAM-FRM-CRS-006	Incident ID: [INC-YYYY-XXX]
Phase:	Phase 5	Date of Incident: [DD/MM/YYYY]
Owner:	HSE Team	Time of Incident: [HH:MM]
Incident Details		
Location of Incident:	[Text Field]	
Type of Incident:	[] Injury / Illness [] Property Damage [] Fire [] Security Breach [] Near Miss	
Involved Persons:	[Name(s)]	
Brief Description of Event:	[Text Field]	

Immediate Actions Taken

[Text Field]

Root Cause Investigation (To be completed by HSE)	
Root Cause Analysis Findings:	[Text Field]
Corrective Actions to Prevent Recurrence:	[Text Field]
Action Owner:	[Name]
Target Completion:	[DD/MM/YYYY]
Sign-off	
Reported By:	_____
HSE Manager Review:	_____

PHASE 6: EMERGENCY PREPAREDNESS & BUSINESS CONTINUITY

FORM RAM-FRM-EMP-001: EMERGENCY PREPAREDNESS PLAN (BCP)

Purpose: The master plan outlining roles, responsibilities, and procedures during a major facility emergency.

Document Control		Field Details
Form Code:	RAM-FRM-EMP-001	Plan Version: [v1.0]
Phase:	Phase 6	Date Last Updated: [DD/MM/YYYY]
Owner:	HSE Team	Next Review Date: [DD/MM/YYYY]
Emergency Scenarios Covered	Response Procedure Summary	Primary Response Team
1. Fire / Smoke Event:	[Text Field (e.g., Activate alarm, call Civil Defense, evacuate)]	[Security / FM Team]
2. Major Power Outage:	[Text Field (e.g., Start backup generator, notify tenants)]	[Facilities / IT]
3. Security / Active Threat:	[Text Field (e.g., Lockdown, call police)]	[Security / HSE]
4. Natural Disaster (Flood/Storm):	[Text Field (e.g., Secure assets, relocate tenants)]	[Ops / Maintenance]
Business Continuity (BCP) Measures		
Critical Business Functions to Restore:		[Text Field]
Recovery Time Objective (RTO):		[Hours]
Recovery Point Objective (RPO):		[Hours]
Offsite Backup Location / Alternate Site:		[Text Field]
Approval		
Approved By (Head of Operations):		_____
Date:		[DD/MM/YYYY]

FORM RAM-FRM-EMP-003: EMERGENCY DRILL / EXERCISE RECORD

Purpose: To record the execution of emergency drills and capture performance metrics.

Document Control		Field Details
Form Code:	RAM-FRM-EMP-003	Drill ID: [DRL-YYYY-XXX]
Phase:	Phase 6	Drill Date / Time: [DD/MM/YYYY @ HH:MM]

Document Control	Field Details		
Owner:	HSE Team	Drill Type: [] Fire Evacuation [] Security Lockdown [] Power Failure	
Drill Performance Metrics			
Total Building Occupancy:	[Number]	Total Evacuated / Locked Down:	[Number]
Total Time to Complete:	[Minutes]	Target Time:	[Minutes]
Issues / Observations Identified:	[Text Field]		
Corrective Actions Required:	[Text Field]		
Sign-off			
Drill Coordinator:			
HSE Manager Review:			

PHASE 7: FINANCIAL & COST MANAGEMENT

FORM RAM-FRM-FNC-001: OPERATIONAL BUDGET FORM

Purpose: To plan, estimate, and approve annual operating expenditures for the facility.

Document Control	Field Details				
Form Code:	RAM-FRM-FNC-001		Budget Year: [YYYY]		
Phase:	Phase 7		Property / Asset: [Text Field]		
Owner:	Finance / Ops		Currency: [\$]		
Cost Category	Q1 (\$)	Q2 (\$)	Q3 (\$)	Q4 (\$)	Annual Total (\$)
Preventive Maintenance (Vendors):	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]
Corrective / Reactive Maintenance:	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]
Utility Costs (Electricity, Water, Gas):	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]

Cost Category	Q1 (\$)	Q2 (\$)	Q3 (\$)	Q4 (\$)	Annual Total (\$)
Cleaning & Waste Management:	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]
Security Services:	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]
Spare Parts / Materials:	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]
Contingency (5-10%):	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]	\$ [Number]

| Total Planned Budget: | | | | \$ [Number] |

Approvals	
FM Manager:	
Finance Controller:	

PHASE 8: KNOWLEDGE MANAGEMENT & STRATEGIC IMPROVEMENT

FORM RAM-FRM-KMI-005: INNOVATION IDEA FORM

Purpose: To formalize the capture and submission of new ideas for cost savings, safety improvements, or operational efficiency.

Document Control		Field Details
Form Code:	RAM-FRM-KMI-005	Idea ID: [IDE-YYYY-XXX]
Phase:	Phase 8	Submission Date: [DD/MM/YYYY]
Owner:	Continuous Improvement	Submitter: [Name]
Idea Details		
Title of Idea:		[Text Field]
Problem or Opportunity:		[Text Field]

Proposed Solution:	[Text Field]
Estimated Cost to Implement:	\$ [Number]
Estimated Benefit / Savings:	\$ [Number] (Yearly)
Required Resources (Equipment, Vendors, Approvals):	[Text Field]
Initial Assessment (To be filled by Continuous Improvement Team)	
☐ Accept (Proceed to Implementation)	
☐ Reject (Reason: _____)	
☐ Request More Information	
Assessor Name:	_____

FORM RAM-FRM-KMI-006: LESSONS LEARNED REPORT TEMPLATE

Purpose: To capture, document, and share knowledge gained from completed projects, incidents, or significant operational events.

Document Control		Field Details
Form Code:	RAM-FRM-KMI-006	LL ID: [LL-YYYY-XXX]
Phase:	Phase 8	Reference Project / Incident: [Text Field]
Owner:	Continuous Improvement	Date Prepared: [DD/MM/YYYY]
Section A: Context		
What was the project/event?		[Text Field]
What went well? (Successes)		[Text Field]
What went wrong? (Challenges)		[Text Field]
Section B: Root Cause Analysis (Why?)		
Root Cause / Contributing Factors:		[Text Field]
Section C: Lessons Learned & Recommendations		
Key Takeaway / Recommendation:		[Text Field]
Target Audience for this Lesson:		[Text Field]

Actionable Next Step to implement lesson:	[Text Field]
Assigned Owner:	[Name]
Due Date:	[DD/MM/YYYY]
Approval	
Reviewed By (Continuous Improvement Lead):	_____
Date:	[DD/MM/YYYY]

OPERATIONAL REGISTERS (MASTER LOGS) GUIDELINES

In addition to the 18 core forms above, the following **8 Master Registers** must be maintained (using Excel or SharePoint Lists) for L0-4 Operations.

Guideline 1: Who maintains them?

These are managed by the RAM Operations Admin or the FM Helpdesk Supervisor. They serve as the "Master Dashboards" for daily operational control.

Guideline 2: How to structure them?

Use the following headers for your master sheets:

1. COM-REG-OPS-001: ASSET MASTER REGISTER

Purpose: Master list of all critical plant equipment, their location, and SAP ID.

Columns: Asset ID (SAP PM) | Equipment Name | Manufacturer | Model | Functional Location | Criticality (H/M/L) | Installed Date | Warranty Expiry.

2. COM-REG-OPS-002: VENDOR/CONTRACTOR MASTER REGISTER

Purpose: Centralized list of all outsourced vendors and their contract details.

Columns: Vendor ID (SAP MM) | Vendor Name | Service Category | Contract Start | Contract End | Primary Contact | Phone | SLA KPI Target.

3. COM-REG-OPS-003: PREVENTIVE MAINTENANCE SCHEDULE

Purpose: High-level calendar view of all scheduled PMs for the year.

Columns: Maintenance Plan ID (SAP PM) | Asset ID | Activity Description | Frequency | Next Due Date | Assigned Vendor | Status (Scheduled / Completed / Overdue).

4. COM-REG-OPS-004: SERVICE REQUEST REGISTER

Purpose: Live log of all incoming tenant service requests.

Columns: Request ID (SR-XXX) | Date | Tenant | Location | Category | Priority | Assigned Vendor | Status (Open / In-Progress / Closed) | SLA Met?.

5. COM-REG-OPS-005: WORK ORDER REGISTER

Purpose: Tracking financial and labor expenditure on maintenance tasks (Preventive + Corrective).

Columns: WO # (SAP PM) | Asset ID | Type (PM/CM) | Description | Labor Hours | Parts Cost (\$) | Total Cost (\$) | Completed Date.

6. COM-REG-OPS-006: HSE INCIDENT & RISK REGISTER

Purpose: Tracking active risks, open incidents, and compliance expiry dates.

Columns: Risk/Incident ID | Type (Risk/Incident) | Description | Severity | Status | Action Owner | Target Closure Date.

7. COM-REG-OPS-007: OPERATIONAL BUDGET VS. ACTUAL TRACKER

Purpose: Monthly tracking of financial health.

Columns: Cost Category | Budgeted (\$) | Actual (\$) | Variance (\$) | Variance (%) | Explanation.

8. COM-REG-OPS-008: LESSONS LEARNED & ACTION TRACKER

Purpose: Tracking the implementation of improvements identified from Lessons Learned reports.

Columns: LL ID (KMI-006) | Action Item | Owner | Due Date | Status (Pending / Completed) | Benefits Realized.

How to deploy these Registers:

- **SharePoint Lists** are the preferred tool because they provide real-time views, notifications (e.g., when a WO is overdue), and seamless integration with Power BI for your monthly SOP dashboards.
- **Daily discipline:** The FM Helpdesk Admin must update **Register #4 & #5** within 1 hour of any tenant or vendor interaction to maintain operational data integrity.
